I had a chance to ask Rusty Schweickert about this posting. He told me in no uncertain terms that it was all bullshit. He states:

"I've heard this sort of question 'way too many times. Once and for all: NO ASTRONAUT I KNOW OF, OR COSMONAUT FOR THAT MATTER, HAS *EVER* SEEN ANYTHING AT ALL LIKE A FLYING SAUCER! PERIOD. No matter how often we say this, we keep seeing stuff attributed to us that is just completely made up."
